THE DIRECTOR OF CENTRAL INTELLIGENCE  
WASHINGTON, D. C. 20505

21 August 1974

Commander Lionel Olmer, USN  
Acting Executive Secretary  
The President's Foreign Intelligence Advisory Board  
Room 340  
Executive Office Building

Dear Commander Olmer:

Enclosed is a copy of the paper on "Problem Issues on the International Scene" which you requested this morning. As you know, the President's copy of this report was provided Dr. Kissinger prior to the 10 August National Security Council meeting. Additionally, a copy was given to Colonel Jack A. Walker of the Office of the Vice President on 13 August to be held for the new Vice President "when he is in a position to see and receive classified documents." Of course, Governor Rockefeller's position on the President's Foreign Intelligence Advisory Board entitles him to such receipt now via the Board, and it is only logical that the paper be made available to him at the earliest possible moment.

As in our note to the PFIAB and to Colonel Walker, Governor Rockefeller's attention is called to the fact that the entire package is being tightly held for obvious reasons and that two specific pages of this fairly broad-brush survey are particularly sensitive. Both are in the section on Strategic Programs, the most sensitive portion of the whole report. The first is the page entitled "Compliance with SALT Agreements" which contains certain information that is being very closely held. The other is the lower portion of the first page of the two-page section on "Proliferation of Nuclear Weapons" which is based on very sensitive information.
